A KINDERGARTEN PIONEER.

Career of a Woman of Pluck, Talent and Great Usefulness.

The kindergarten system of the Connecticut valley and a large contiguous region in western Massachusetts and Rhode Island owes much of its usefulness to Mrs. Elizabeth R. Abbott, who has been an active educator for the past 10 years. She was a pioneer in kindergarten work in Connecticut. Mrs. Abbott was born in Lowell, Mass., in 1852. In girlhood she became a disciple of Elizabeth Peabody and intended to devote her energies to the kindergarten method of teaching. Her father, W. S. Robinson of Lowell, died, leaving her without resources before she had fitted herself for self support, and she engaged successively in various callings until she drifted into Mrs. Shaw's charity kindergarten and nursery in Boston. Meanwhile she had taught a country school and "boarded round" in Maine, had kept a private school, tried bookkeeping and learned to set type.

Her position in Mrs. Shaw's institution was nominally that of "second assistant," but the duties proved to be those of a kitchen maid or cook, yet it

MRS. ELIZABETH ROBINSON ABBOTT.

was preferable to shop work and other employments usually chosen before housework by ambitious girls. Mrs. Shaw's manager became interested in the "second assistant" and helped her to means and leisure for study, even supplying money for her tuition and exonerating her certain hours a day from household labor.

Miss Robinson entered a kindergarten college and graduated in 1888. She has studied and waited seven years for the fulfillment of her hopes and was enabled to put her hard earned experience to immediate use. She had taught some in the charity schools of Boston and was engaged to introduce the kindergarten system into the Hillside Avenue school at Waterbury, Conn. She was married in 1885 to George S. Abbott of Waterbury, but continued to teach her classes until the little ones originally placed in her care had graduated for the primary departments of the public schools.

Since resigning from official connection with school work Mrs. Abbott has kept up her interest in kindergarten teaching and encouraged and helped others to extend and maintain the system. She has been prominent in the Connecticut Valley Kindergarten association, and also in founding and strengthening associations for the advancement of women, among them the Old and New club of Boston, the Woman's club of Malden, Mass., and the Woman's club of Waterbury.

EDITH HOWARD.

HELPLESS WOMEN.

They Still Exist In Their Picturesque Incapabilities.

When the extreme of the tailor made fashion was replaced by the present soft frills and furbelows, a universal cry of jubilation arose from the newspapers announcing that now women would become once more as sweetly feminine and helpless as in the Miss Burney days, when they swooned at the slightest provocation, from which we may infer that a woman's character is as protean as her garments.

However, if the newspapers had stopped in their headlong joy to reason upon the subject, perhaps the prospect of a revival of the Evelina type would not have seemed such matter for gratulation. If a woman once begins to be helpless, there is no telling where she will stop. It is very nice indeed to have a pretty woman unable to cross a fallen log in the woods without a man's assistance. But if she faints dead away in the middle of a five acre field when a bull is beginning to lower his head and raise his tail her dependent condition is not quite so pleasant. Then the ability to kilt her petticoats and run is a quality more likely to be appreciated by her escort.

The public need never have feared that helplessness was a lost art, for the incapable type has not become extinct by any means. It was flourishing like the green bay tree in retired nooks and corners during the very height of tailor reign and athletics. There now exists a woman who, prevented by her mother from marrying her lover in their youth, was wedded to him when about 50 years old. She still wore the banded hair and dove colored, full skirted dresses that had gone out of date years ago, and she was, oh, so delightfully helpless and dependent! Her husband came home one winter day and found her half frozen and crying, without a spark of fire in the house. The servant had left in the morning, and the fire had gone out, and although there was abundant fuel the mistress did not know how to build a fire, and so was compelled to sit in the cold until her husband returned and brought his vigorous mind to bear on the case.

If picturesque incapability should really prevail again in all its mighty inertia—of which there is no probability—certain serious disadvantages may appear that are now hidden under the ruffles and rosebuds, and the present time may be regretted, when a woman winds her watch, keeps her appointments, answers business letters and appreciates her husband instead of merely adoring him.

KATE CHASE.

THROUGH SLEEPING CARS

VIA BIG FOUR ROUTE TO THE WORLD'S FAIR.

We all love comfort, especially when traveling, and what a great comfort it is to be able to take a sleeping car at your own home which runs right through to Chicago without change and lands passengers at the entrance gate of the great World's Fair without a single change or transfer of any kind. How can this be accomplished? Why simply by asking your local agent for a ticket via the Big Four Route, which is absolutely the only line running through sleeping cars in connection with the E. T. V. & G. Railway and Queen & Crescent Route direct to the World's Fair Grounds and landing passengers conveniently to the World's Fair Hotel District. Through Sleeping Car leaves Macomb 11:15 A. M., Atlanta 2:10 P. M., Rome 4:55 P. M., Chattanooga 7:25 P. M., and arrives at Chicago 5:15 P. M. Ask for tickets via Big Four Route and for further information address D. B. Martin, General Passenger Agent, Cincinnati.

The Queen & Crescent and Louisville Southern will make a round-trip rate of 1 1/2 fare to New Orleans on account of the meeting of the colored Knights of Pythias Supreme Lodge, Sept. 25-30. Tickets on sale 22 to 27 on certificate plan. Solid vestibuled trains run to New Orleans from Cincinnati in 20 1/2 hours. It is 94 miles the shortest line. These roads have been named as the official route of the I. O. O. F. for the South, on account of their first-class train service, elegant equipment and quick time and they will sell tickets cheap to the I. O. O. F. demonstration in Chicago, Sept. 23-30. Ask agent for rates. Choice of routes via Cincinnati or Louisville. W. C. Rinearson, general passenger agent, Cincinnati.

The Q. & C. and L. S. announce a one fare rate to Versailles 27-28 on account of the re-union of the Orphan Brigade, with special train from Lexington at 9 A. M. on the 27th. The same roads will sell tickets to Cincinnati 25-27 at 1 1/2 fares for the round trip, on account of the Young Men's Institute Meeting of Grand Council. See agents or address W. E. Rinearson, G. P. A., Cincinnati.

A Good Thing to Keep at Hand.

From the Troy, Kas. Chief: Some years ago we were very much subject to severe spells of cholera morbus, and now when we feel any symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy the very thing to straighten one out in such cases, and always keep it about. We are not writing this for a pay testimonial, but to let others know what is a good thing to have handy in the house. For sale by W. B. McKelbert, Druggist, Stanford.

Now Try This.

It will cost you nothing and will surely do you good if you have a cough, cold or any trouble with throat, chest or lungs. We guarantee that it will give relief or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at A. R. Penny's drug store. Large size 50 cents and 75.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism; his stomach was disordered, his liver was affected to an alarming degree, appetite fell away and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.
Edward Shepherd, Harrisburg, Ill., running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg; doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by A. R. Penny, druggist.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

The way she looks troubles the woman who is delicate, run-down or overworked. She's hollow-cheeked, dull-eyed, thin, and pale, and it worries her. Now the way to look well is to be well. And the way to be well, if you're any such woman, is to faithfully use Dr. Pierce's Favorite Prescription. That is the only medicine that's guaranteed to build up woman's strength and to cure woman's ailments. In every "female complaint," irregularity, or weakness, and in every exhausted condition of the female system—if it ever fails to benefit or cure, you have your money back.

London, - - KENTUCKY.

Refitted and refurbished and in every way prepared to attend the wants of the public. Rates very reasonable.

NO. 2 Vanderpool Smokeless.

We call this a smokeless coal because it does not make a heavy black smoke that ordinary coals do, but it is like that made from a wood fire. We present for this coal a place in the market that will capture the trade, "body and soul." It carries with it a combination of qualities not found in any other coal mine at this time. The smokeless feature will insure for it quick sale in the cities, because those who want it who worry the city authorities about the smoke nuisance. Add to this the non-soot feature and then you have in this coal the thing that all housekeepers must have when they can get it, in order to keep the coals in good humor, for there will be no choked pipes to be frequently cleaned. This coal mines in very large blocks and will produce 75 per cent. Lump, and big ones at that, from the ordinary room in the mines. The coal from this vein, handled over the standard 16 inch screen will produce a better coal than the other coals in this section over a 16 inch screen and called "black." This coal will not stick either from exposure or other causes, and the dealer and consumer will demand it on account of real merit.

Analysis Vanderpool Smokeless—Volatile Matter, 40.70. Fixed Carbon, 58.30. Ash 1.10.

The above analysis stamps the Vanderpool as A No. 1 fuel, and when once introduced will hold its own in any market. Prices same as best Jellico.
